MUR 6916

Dear Mr. Jordan;

Please be advised that no action should be taken against Scott Brion for Congress or myself in the capacity as Treasurer in regard to the complaint filed by the Foundation for Accountability and Civic Trust. The complaint in which the committee is named makes the allegation that candidates and federal party committees improperly purchased and exchanged data. Please be advised that Scott Brion for Congress did not purchase or receive any voter files or any data products from any of the entities named in the complaint. The committee did purchase online database services from NGP VAN, but researched all data in-house and never exchanged or received any data from NGP VAN or any other entity named in the complaint.

As the committee did not have any of the relationships at the heart of the complaint it is our belief that the committee's inclusion in the complaint was in error. As such, we respectfully request that the committee be removed from the complaint. Please be advised if you require further information.

Sincerely,

Eric J. Loudenslager
